LMAX Digital, part of the LMAX Group, is the leading institutional crypto currency exchange.

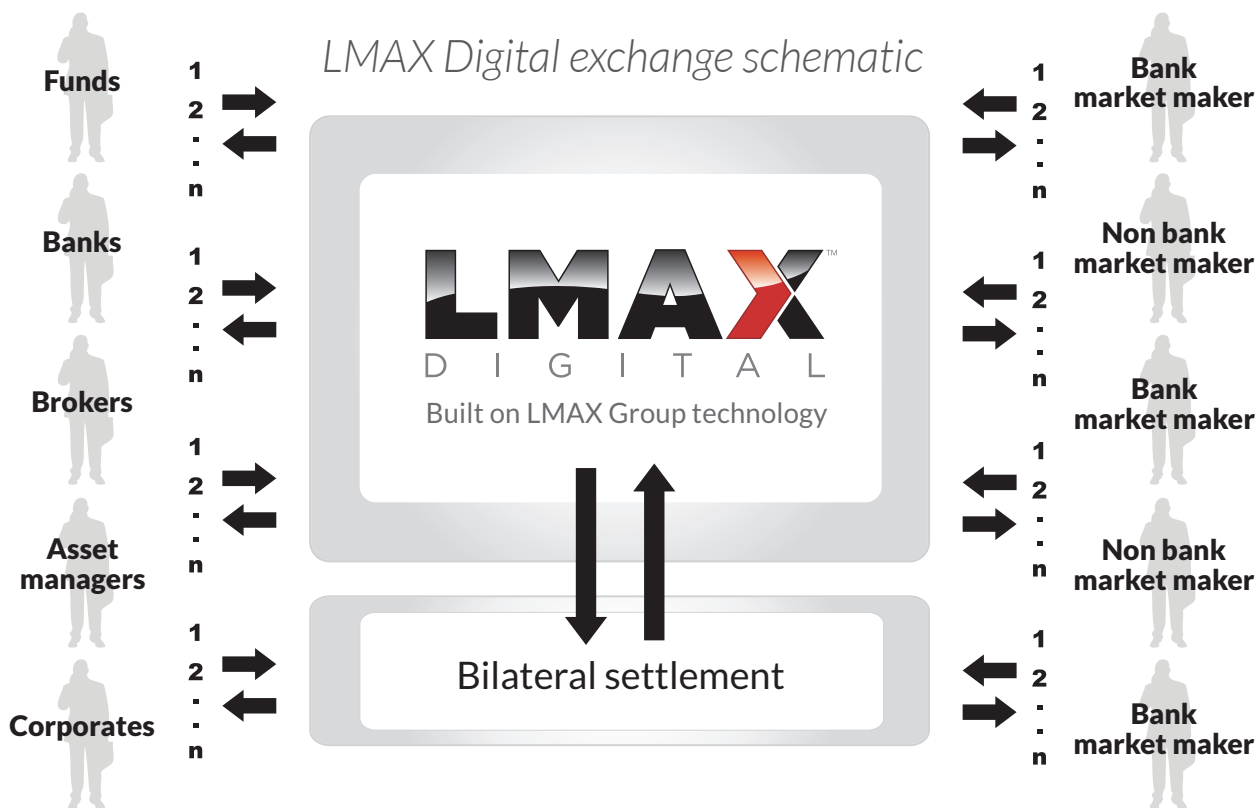

Leveraging LMAX Group proven, robust, low latency technology and liquidity relationships, LMAX Digital delivers a market-leading solution for trading and custodial services for the most liquid crypto currencies.

The central limit order book model enables efficient market structure and transparent, precise, consistent execution for all market participants, including banks, funds, corporates, brokerages and asset managers.

LMAX Digital offers institutional grade compliance oversight and a full custodian solution. As a regulated business, it is governed by similar rules and principles as LMAX Group's FCA regulated MTF and operates a highly secure full custodian solution, based on security tiered offline wallets, designed for institutional use.

Trading with all the largest institutions globally, LMAX Digital is a primary price discovery venue, streaming real-time market data to the industry's leading indices and analytics platforms, enhancing the quality of market information available to investors and enabling a credible overview of the spot crypto currency market.
